

Green Product Development

Greentech Engineering, LLC (GTE) is a division of Greendustry Park, Inc. that responds to the urgent need for an all inclusive green technology engineering and prototyping organization here in New England. GTE was created with green technology products in mind. From our backgrounds in the competitive high precision machining fields, we have developed the skills and expertise to act flexibly and deliver your product in the most cost effective way. Some of the services that GTE can provide are:

- Engineering of prototypes, parts and systems
- Prototyping and Product Development
- Design, CAD / CAM
- Microcontroller and embedded Linux based systems design
- 4 axis machining capability, turning, grinding, welding capabilities
- Process efficiency and automation engineering
- Systems assembly and testing
- 40,000 RPM spindle capability (super small hole drilling and milling)

Since GTE is a division of Greendustry Park, you as our client and customer will also have access to all Greendustry Park services including:

- meeting, working, and planning space,
- business support, bookkeeping, and marketing services,
- shared offices, conference rooms and meeting halls,
- a retail outlet/showroom/exhibit area for your products, and much more!
