

# Start-ups / Inventors

Greentech Engineering, LLC is a division of Greendustry Park, Inc. that responds to the urgent need for an all inclusive green technology engineering and prototyping organization here in New England. GTE specializes in working with start-ups and small green technology inventors and producers to help design, engineer and prototype your part, device, or new product.

Working with GTE and Greendustry Park, you gain the design and engineering expertise of our engineers along with the business, marketing, planning and development assistance from Greendustry Park's incubator/accelerator business support professionals.

You can focus on your product or invention while GPI and GTE work on delivering your product to a developed market.

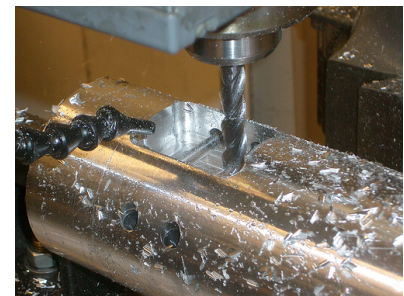

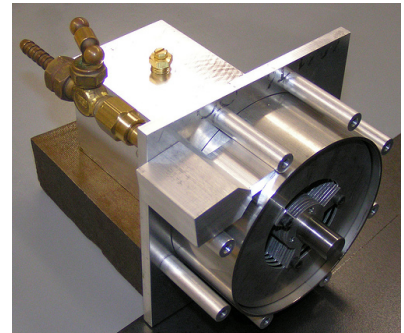

GTE offers the following services:

- Design, CAD / CAM
- Consulting
- 4 Axis Machining, Turning, Grinding and Welding
- Prototyping and Product Development
- Renewable Energy and Biofuels products and systems design
- Microcontroller and embedded Linux systems design and implementation
- Product "greening" consulting and engineering

Since GTE is a division of Greendustry Park, you as our client and customer will also have access to all Greendustry Park services including:

- meeting, working, and planning space,
- business support, bookkeeping, and marketing services,
- shared offices, conference rooms and meeting halls,
- a retail outlet/showroom/exhibit area for your products, and much more!
